INSTALLATION DEPOSUN GLASS TOP 760 LIGHTPIPES IN DOLE FRUITS FACTORY IN CHILE (CODEGUA)

LOCATION:	CHILE /CODEGUA)
CLIENT:	DOLE
REF:	DOLE CHILE

Energy costs are increasing, and industrial buildings, such as factories, warehouses and offices are now very sensible to new technologies that could help to reduce the electricity consumption used in artificial lighting.

In Dole Chile has been implemented **DEPOSUN GLASS TOP 760** in an area Factory as a test pilot. The idea is to implement the same solution to the whole Factory step by step.

Dole property wanted to have a better quality lighting to improve quality work of their employees and also reach some energy and money savings. Both targets were reach with **DEPOSUN** lightpipes.

For information (+34) 934 090 359 or visit www.espaciosolar.com and discover the possibilities of sun pipes, solar reflectors, optic fiber systems, or our high performance skylights. We work to make your projects shine.
